## REACH COMPLIANCE NOTIFICATION

Article 33 of the Regulation 1907/2006/EC

Statement for Customers of Trelleborg Wheel Systems

Pursuant to Article 33 (1) of the European Union Registration, Evaluation, Authorization of Chemicals (REACH) Regulation 1907/2006/EC, Trelleborg Wheel Systems — Industrial tires, on behalf of itself and operating subsidiaries, has an obligation to communicate to professional customers information about certain substances contained in our products that are manufactured in or imported into the EU 27 Member States. Where an article, such as a tyre, a wheel or a tyre-wheel assembly contains any substances meeting the criteria in Article 57 and identified in accordance with Article 59 in a concentration above 0.1 % weight by weight (w/w), Trelleborg Wheel Systems — Industrial tires is obligated to provide sufficient information to allow safe use of the article including, as a minimum, the name of that contained substance.

The European Chemicals Agency (ECHA) has officially published the Candidate list of substances of very high concern (SVHC) that meet the above criteria. The current list can be viewed via the following web link:

[http://echa.europa.eu/chem\\_data/authorisation\\_process/candidate\\_list\\_table\\_en.asp](http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)

In response to our above obligations, as part of this SVHC identification process we have:

- Reviewed internal/publicly available engineering data in relation to the presence of SVHCs in our products or any of their component parts;
- Reviewed available safety data sheets for all our input materials;
- Communicated with our suppliers to exclude/confirm the presence of SVHCs in any component parts of our products.

As a result of this process, we confirm that the product(s) we currently supply to you do(es) not contain any SVHCs included on the Candidate List in concentrations above 0.1 % (w/w).

Since we are supplying only finished tires, wheels or assemblies (articles), according to the current legislation we are not required to provide our products accompanied by a Material Safety Data Sheet.

It is our intention to meet the requirements set by REACH, and we shall continue to inform you, in the framework of our business relations, of any changes to the above.
