

PowerPull 01

Racing tyre without limits

Mitas

Mitas PowerPull 01

The PowerPull 01 tyre is specifically designed to deliver maximum traction during tractor pulling contest.

Key product features

- The tyre is built to withstand even the most extreme stress, providing maximum traction performance and enhanced durability
- The tread is made with a unique rubber compound specially developed to resist wear and tear when put to the test during extreme traction
- The slick surface lets competition teams carve their own unique tread patterns while keeping a tight grip on the ground

Technical data

Tyre size	Permitted rims	Tyre section width (mm)	Tyre outer diameter (mm)	Loaded static radius (mm)	Rolling circumference (mm)	With of tread pattern arc (mm)	Max. speed of vehicle (km/h)	Max. inflation pressure (bar)	Max. load capacity (kg)	Max. cut depth for tread (mm)	Tyre weight – untreated (kg)
